Master of Science in Business Analytics, Rady School of Management 12/2024

University of California, San Diego, CA

GPA: 3.74 / 4.0

- Relevant Courses: Big Data Tech SQL and ETL, Web Mining & Recommender Systems, Analyzing Unstructured Data, Collecting and Analyzing Large Data, Business Analytics, Customer Analytics, Scalable Analytics

Bachelor, Information Technology Management, Lusófona University 06/2023

University Center of Lisbon, Lisbon, Portugal

GPA: 3.65 / 4.0

- Relevant Courses: Data Mining, Artificial Intelligence, Decision Support Systems, Databases, Algorithms and Data Structures

EXPERIENCE

Software Developer, Fapil – Indústria S.A., Venda do Pinheiro, Portugal 02/2022 - 09/2022

Portuguese company that develops, manufactures, and markets products for hygiene, cleaning, and home organization.

- Developed comprehensive Power BI dashboards for productivity and human resources analysis, and trained users, enabling data-driven decisions and optimizing queries in Microsoft SQL Server for increased work efficiency.
- Enhanced the company's proprietary platform/website with new features, improving user experience and operational functionality, resulting in a 75% reduction in process time.
- Executed back-end development in the company's Enterprise Resource Planning (ERP) system, leading to significantly improved and streamlined internal workflows and processes, which ultimately reduced task completion time by 80%.

PROJECTS

UCSD Parking Lots, UCSD, Collecting and Analyze Large Data 12/2023

Rady School of Management – University of California, San Diego, CA

- Created comprehensive website about UCSD parking lots, leveraging web scraping to collect parking data, followed by data transformation for enhanced accuracy and relevance.
- Implemented Django for website development and integrated Tableau dashboards, providing in-depth analysis and visualization of parking trends and availability.

Mobility Dashboard, Transportes Metropolitanos de Lisboa, Final Course Project 06/2023

Lusófona University – University Center of Lisbon

- Pioneering university project recognized for applying advanced visualization and web development techniques to illuminate metropolitan transportation in Lisbon, featuring a Django website with dynamic, interactive visualizations.
- Conducted comprehensive Data Wrangling and ETL processes to refine transportation data, subsequently creating insightful Power BI dashboards for enhanced data analysis and interpretation.
- Established a centralized platform for stakeholders, facilitating informed decision-making and promoting public transparency regarding Lisbon's metropolitan transportation systems.

SPECIALIZED SKILLS

- **Languages/Coding:** HTML & CSS, JavaScript, Java, Python (Pandas, NumPy, Scikit-Learn), SQL, R, DAX
- **Operating Systems:** Microsoft Windows, MacOS
- **Tools:** Microsoft SQL Server, Microsoft Power BI, Tableau, Django, GitHub, PHC Management Software
- **Certifications:** Power BI for Professionals
- **Spoken Languages:** Portuguese, English, Spanish

PROFESSIONAL AFFILIATIONS & LEADERSHIP

- Volunteer: Data Science Salon Seattle 01/2024
- Member of Rady Data Analytics Club 2023 - 2024
- Member of TecWeb event – Managed preparation and assured detailed execution 2021 - 2023
- Volunteer: Community Dinners, Serve the City, Lisbon 2014
